Who are we?

Futuristic Store Fixtures Pte Ltd is a store fixtures - value engineering and build - specialist in support of each brand's retailing growth.

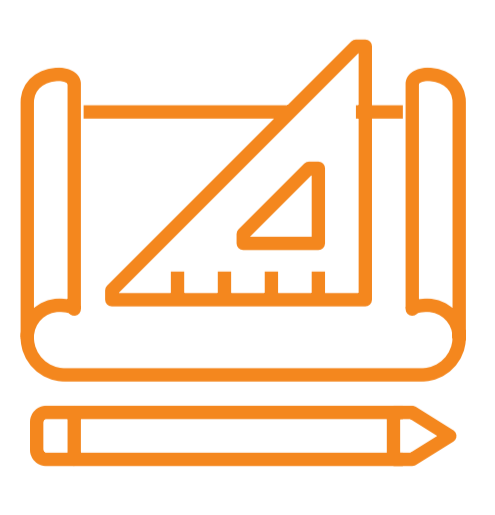

With over **500,000** sq ft of wood and metal joinery facilities, we have been supporting the growth of leading brands in various retail sectors. Our portfolio covers fashion apparel and shoes, fashion accessories & watches, denims, lingerie, health & wellness, beauty and personal care, F&B, telco & consumer electronics, specialty store, bookstore, co-working space and more.

What we do?

We create brand building environments in modular system for sustainable production, that suits in-store assembly and simultaneous installation in multiple stores.

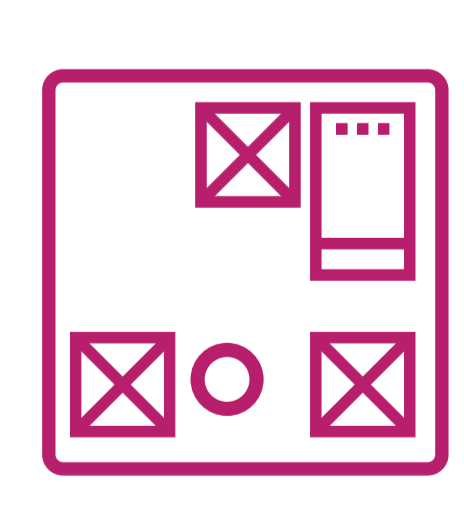

The ingredients in creating sustainable brand building environments:

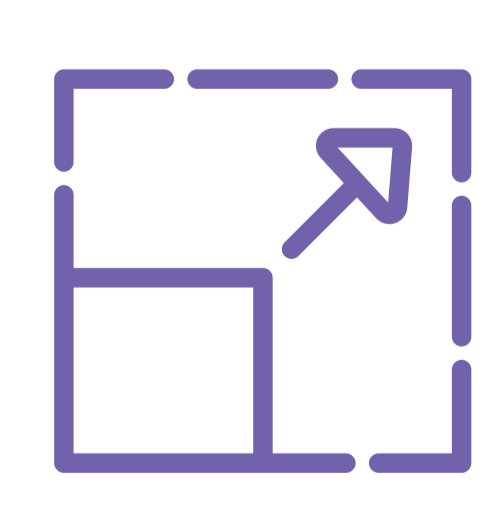

Fixtures Design Review & Consultancy

Value Engineering, Prototyping & Proto-store

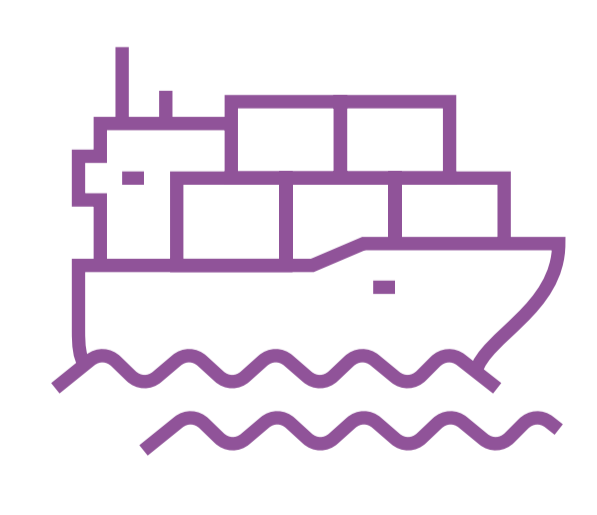

Store Layout Design & Planning

Scalable Production Tailored to Individual Program

Inventory Management Aligned with Delivery Time Plan

Logistics Management for Time to Market

On-site Installation Supervision

Where are we located?

Headquartered in Singapore, with wholly owned manufacturing facilities in Malaysia and China.

Strategically located within proximity of shipping ports, both China and Malaysia manufacturing facilities are built with mirrored capabilities to facilitate seamless transfer of technical know-how and migration of on-going projects. This allows flexibility to respond to external socio-economic and political factors, minimizing disruptions to project deliveries.
